Stone
Red Jasper

Techniques: turning, knurling, satin finishing.
All metallic parts are crafted in Italy,
while the stones are carved in Peru.
Product ID: VV.CY25.BOSI.S00

Cleaning
Wash gently by hand using mild soap and lukewarm water. Do not use abrasive sponges or harsh chemicals, as these can damage the plating. Dry immediately with a soft, non-abrasive cloth to prevent watermarks and tarnish.

Polishing
Use a gentle, non-abrasive polish formulated for silver or brass if necessary. Avoid polishing stone or enamel details, clean those areas with a damp cloth only.

Usage
Not suitable for dishwashers or microwaves. Avoid prolonged contact with acidic or salty foods, which may accelerate wear of the plating.

Storage
Keep in a dry place, away from humidity and direct sunlight. Store individually in soft pouches or wrapped in cloth to prevent scratches on the surface.
